After 40 years of acid indigestion and taking every kind of purple pill there was, I discovered that drinking Kangen Water 9.5 pH eliminated 99% of my chronic indigestion, or Gastroesophageal Reflex Disease (GERD) as it is called.

In my late 50's I noticed that my endurance and energy level had tapered off to where I was only able to work 4 hours or so in the backyard and pond area we have. I really work hard because it has always made me feel better at the end of the day. During the week I am sitting down at my desk and my work requires attention and focus on computer software development of strategies in maintenance management. After two weeks on the Kangen Water, the following weekend before Labor Day weekend in 2007 I worked 10 hours Saturday, 10 hours Sunday, and 10 hours on Monday. It was not until Tuesday I realized that the Kangen Water had given me my endurance and energy back. Even today and as every day passes, I really feel the difference in my return of energy.

Since the last few years I developed soreness in my hands, feet, knees, and shoulders. My genes gave me gout and I know I have some form of arthritis. The nutritional drugs seem to take the edge off of the pain along with Aleve. All of what I was taking had marginal positive effects. Since September 2007 my gout and arthritis have disappeared. More importantly I have new strength in my hands. You can tell this when you shake hands. The Kangen Water definitely has changed this and when I slack off and do not drink the Kangen Water I can tell because the soreness starts to come back.

In conclusion, I cannot believe it is just water. But I have now tried to return to bottled water and city water and I can tell the symptoms that I have had before start to return. I immediately start drinking Kangen Water and my body returns to normal. Kangen Water definitely allows your body to return to normal and function at it's optimum performance.

Remember, Kangen Water is created with Enagic's ionizer, electrolysis, water generator that makes water equal to or better than the miracle waters in Tlacote Mexico, Nadana India, Nordenau Germany and Lourdes France. People around the world flock to these places to regain their health. Just a day or two and you get your health back. Don't believe like I did not, try the water and let your body tell you how you feel.
